SUMMARY

Junior Full Stack .NET Developer and Computer Science student at Luxor University (expected 2028), specializing in building responsive, database-driven web applications with C#, .NET, ASP.NET Core MVC, RESTful Web APIs, Entity Framework Core, and SQL Server. Delivered 5 end-to-end projects covering frontend interfaces, backend business logic, CRUD operations, and relational database design. Trained through both the Information Technology Institute (ITI) and the Digital Egypt Pioneers Initiative (DEPI) in back-end .NET and front-end development. ECPC-certified in problem solving, with a strong foundation in OOP, data structures, algorithms, and software engineering. Seeking a junior .NET developer role where I can contribute clean, maintainable code and continue growing in full stack development.

TECHNICAL SKILLS

Backend Development: C#, .NET, ASP.NET Core, ASP.NET Core MVC, RESTful Web API, LINQ, Object-Oriented Programming (OOP), SOLID principles, clean code

Frontend Development: HTML5, CSS3, JavaScript (ES6+), Bootstrap, React.js, Responsive Web Design, RTL layouts, cross-browser compatibility

Databases: SQL Server, SQL / T-SQL, Entity Framework Core, relational database design, CRUD operations, data modeling

Programming Languages: C#, C++, Python, JavaScript, SQL, R

Tools & Platforms: Git, GitHub, Visual Studio, SQL Server Management Studio, REST API integration, Chart.js, MS Office

Computer Science Fundamentals: Data Structures & Algorithms, Operating Systems, Software Engineering, Database Systems, Data Analysis, Problem Solving

Professional Skills: Teamwork, Technical Communication, Critical Thinking, Time Management, Attention to Detail, Continuous Learning

EXPERIENCE

Back-End .NET Development Trainee

Digital Egypt Pioneers Initiative (DEPI) | Egypt | Jul 2026 - Present

- Develop back-end solutions with C#, .NET, ASP.NET Core, and SQL Server across a [6]-month government-sponsored technical track.
- Build RESTful Web APIs and implement full CRUD functionality against relational databases.
- Apply layered architecture and OOP principles to produce maintainable, testable server-side code.
- Complete [عدد] hands-on lab projects covering authentication, data access, and API design.

Back-End .NET Development Trainee

Information Technology Institute (ITI) | Egypt | Jul 2026 - Aug 2026

- Completed an intensive back-end training program in C#, .NET, ASP.NET Core, and SQL.
- Implemented database-driven applications using Entity Framework Core and LINQ for data querying.
- Translated business requirements into working backend modules through [عدد] practical projects.

Programming Instructor

Luxor University | Luxor, Egypt | - Present

- Teach programming fundamentals and core computer science concepts to [عدد]+ university students.
- Deliver [عدد]+ technical sessions, simplifying complex topics such as OOP, data structures, and algorithms into practical, example-driven lessons.
- Mentor students through coding exercises and debugging, improving their problem-solving confidence.

Front-End Development Scholar

Digital Egypt Pioneers Initiative (DEPI) | Egypt | Jul 2025 - Dec 2025

- Awarded a full competitive scholarship covering a 6-month front-end development track.
- Built responsive web interfaces using HTML5, CSS3, Bootstrap, JavaScript, and React.js.
- Completed two certified English language levels plus training in presentation, communication, and soft skills as part of the program curriculum.

Freelance Web Developer (Personal & Client Projects)

Self-Employed | Luxor, Egypt | 2025 - Present

- Designed and delivered 5 responsive web applications for clients across healthcare, retail, and media, using HTML, CSS, JavaScript, C#, ASP.NET MVC, and SQL Server.
- Gathered requirements directly from clients and delivered projects that earned consistently positive feedback on responsiveness and usability.
- Integrated third-party REST APIs for live news, currency exchange, weather, and sports data.

PROJECTS

3eyadty - Clinic Management System | ASP.NET MVC, C#, SQL Server, HTML/CSS/JS

- Developed a full stack clinic management application handling patient and appointment records through a role-based, user-friendly interface.
- Designed the relational database schema and implemented CRUD operations with server-side validation.

Akhbarna - Arabic RTL News Portal | JavaScript, REST APIs, Chart.js, HTML5, CSS3

- Built a fully responsive Arabic RTL news portal aggregating general news, sports, currency exchange rates, and weather from [4] external APIs.
- Visualized live financial data with Chart.js and optimized the layout for right-to-left reading.

JobLink - Job Portal | Node.js, REST API, JavaScript, Responsive UI

- Developed a full stack job portal enabling users to browse, filter, and manage job listings.
- Implemented API endpoints for job data retrieval and a responsive interface across devices.

E-Commerce Website | HTML5, CSS3, JavaScript

- Created a responsive online store with product browsing, category organization, and cart interactions.

Pet Care Web Application | HTML5, CSS3, JavaScript, Bootstrap

- Built a responsive, accessibility-conscious service website delivered to a veterinary client.

EDUCATION

Bachelor of Science in Computer Science

Luxor University, Faculty of Computers and Information | Luxor, Egypt | Expected 2028

Grade: Excellent

Relevant Coursework: Object-Oriented Programming, Data Structures and Algorithms, Operating Systems, Software Engineering, Database Systems, Data Analysis

CERTIFICATIONS

- Problem Solving Certificate - Egyptian Collegiate Programming Contest (ECPC)
- Back-End .NET Development Track - Information Technology Institute (ITI), 2026
- Back-End .NET Development Track - Digital Egypt Pioneers Initiative (DEPI), 2026
- Front-End Development Track - Digital Egypt Pioneers Initiative (DEPI), 2025
- English Language Program (Two Certified Levels) - Digital Egypt Pioneers Initiative (DEPI), 2025
- Soft Skills, Presentation and Communication Skills - Digital Egypt Pioneers Initiative (DEPI), 2025

LANGUAGES

Arabic: Native

English: Professional working proficiency (B2 - Very Good)
